

About us

Welcome to Serck Services International

- The Only International Heat Transfer Technology Specialists in the Middle East.
- Specialist Heat Exchange Services to Industrial, Marine and Automotive Sectors.
- Manufacture and Global Export of Radiator, Air Conditioning Coil and Heat Recovery Products.

Serck Services International is part of the U.K. based Unipart Group of Companies; together with our sister branch networks in the UK and U.S.A. Serck are one of the largest Automotive, Industrial and Marine Heat Transfer companies in the world.

Operations range from the production of automotive radiators through to the testing, servicing, re-tubing and complete manufacture of industrial and marine heat exchangers.

From our purpose built manufacturing plant in the United Arab Emirates our specialist heat transfer products are exported globally to distributors and users across the Middle East, Africa, United Kingdom, Mainland Europe and North America.
